Quality Service Guarantee

A new service from 4Farmers

4FARMERS is proud of the farm chemicals it markets, both for its product range and for its quality, but occasionally something can go wrong, so 4Farmers is pleased to announce the new Quality Service Guarantee.

If a client has a problem with a 4Farmers product and is unable to obtain an on-farm visit from a company representative within 48 hours, 4Farmers will pay \$200 per day until the representative arrives.

4Farmers is making this offer

for two very good reasons, the first being to reassure clients that the company is proud of its product and is pleased to demonstrate that it stands behind it.

The other reason is because it has no intention of putting itself in a position where it could not provide that level of service for its clients.

Check with your local distributor or contact the office on **1800 038 445**.

Drop into 4Farmers at Wagin and have a ball!

The welcome is guaranteed and not only is the coffee free, but so are the AFL tickets for a football match in Perth that you may be able to pick up.

**How can this be?
Call in and find out!**

Extra discounts from 4Farmers

Although all 4Farmers products are very competitively priced, clients will be able to attract yet another discount, as 4Farmers is now offering an extra one percent discount by paying cash on delivery.

A simple way of making a good deal even better!

Buy from the locals—and keep your money in your own state

4FARMERS is almost unique in that it is owned by active WA farmers, its Head Office is in a Perth suburb and anyone can pick up a phone and speak to the company's CEO.

This means that the decision makers are always aware of current problems and needs and are in a position to respond rapidly when changes occur. More importantly, all the profits stay in WA, enabling the company to research new products and register those that may be needed – plus having a commitment to pass on to local growers the benefits of lower world prices.

For instance, when 4Farmers Triadimefon went on the market for \$170, other suppliers were charging \$1000 for the same amount.

Our range is better since those days and our pencil is just as sharp

Buying your chemicals from a multi-national company carries no guarantee of a better quality, but the profits go back to Europe or America and the taxes levied on them help pay for the subsidies that make life so difficult for our farmers.

Keep Uncle Sam (and his mates) out of your pockets!

See you at the Wagin Woolorama

4FARMERS will again be at the Wagin Woolorama on March 9 and 10, a great opportunity to meet the team and discuss prospects for the 2007 season.

Check out the new products that have just been registered and are available under the 4Farmers label for the first time.

Discuss the latest developments in bio-fuels and bio-diesel and the role they could play on your farm.

Maybe you could just have a cup of coffee and take the weight off your feet

See you there!

4Farmers Pty Ltd Suppliers of agricultural chemicals to protect your crops and animals.
