Situation	Target Weed/s	Rate/ha	Comments
Outdoor areas— Paths, driveways, gardens, near sheds, amenity areas, protected cropping situations, near nursery and orchids. Spot spraying in lawns and turf. Fallows. General use— Including near buildings, commercial and industrial areas, domestic and public service areas, rights-of way, bushland and forests.	Seedling and young annual and perennial weeds and grasses including fat hen, potato weed, stinking roger, couch grass, chickweed, lamb's tongue, peppergrass, capeweed, common storksbill, clover. More advanced or established weeds may only be suppressed and require repeated application.	70 ml per litre of water	Spray to completely cover weed surface. Reapplication at around 7 days may be necessary if regrowth occurs. This product may damage lawn and turf when used as a spot spray. Perennial weed species may require repeated applications to obtain long term control.
		Mix 7 L per 100 L water Apply 900–1400 L/ha	To control weeds in Protected cropping situations, apply on each side of the crop row taking care not to allow spray to contact any of the crop foliage.
Gardens, paths, rockeries, tiled.	Algae, lichen, liverwort, moss	70 ml per litre of water	Spray to fully cover plant surface. For driveways or heavy infestations, clean off by brushing after 3 days and reapply if necessary.

Comments

- Wear eye protection when mixing or using.
- Do not enter treated areas until the product has dried.
- Avoid drift and do not contaminate water ways.
