

SAFETY DATA SHEET

According to Safe Work Australia

Printing date 22.08.2022

Revision: 22.08.2022

1 . IDENTIFICATION: PRODUCT IDENTIFIER AND CHEMICAL IDENTITY

Product Name: CITRIC ACID ANHYDROUS

Other Means of Identification: Mixture

Recommended Use of the Chemical and Restriction on Use: Spray tank solution modifier.

Details of Manufacturer or Importer:

4Farmers Australia Pty Ltd
70 McDowell Street
Welshpool WA 6106

Phone Number: +61 8 9356 3446

Emergency telephone number: National Poison Information Centre: 13 11 26

2 . HAZARDS IDENTIFICATION

Hazardous Nature:

Classified as Hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) and Safe Work Australia criteria.

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)

Skin Irrit. 2 H315 Causes skin irritation.

Eye Irrit. 2A H319 Causes serious eye irritation.

STOT SE 3 H335 May cause respiratory irritation.

Signal Word Warning

Hazard Statements

H315 Causes skin irritation.

H319 Causes serious eye irritation.

H335 May cause respiratory irritation.

Precautionary Statements

P261 Avoid breathing dust/fume/gas/mist/vapours/spray.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

P264 Wash hands thoroughly after handling.

P271 Use only outdoors or in a well-ventilated area.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P321 Specific treatment (see on this label).

P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.

P312 Call a POISON CENTER/doctor if you feel unwell.

P332+P313 If skin irritation occurs: Get medical advice/attention.

P337+P313 If eye irritation persists: Get medical advice/attention.

P302+P352 IF ON SKIN: Wash with plenty of water.

P362+P364 Take off contaminated clothing and wash it before reuse.

P405 Store locked up.

P403+P233 Store in a well-ventilated place. Keep container tightly closed.

P501 Dispose of contents/container in accordance with local/regional/national regulations.

(Contd. on page 2)

SAFETY DATA SHEET

According to Safe Work Australia

Printing date 22.08.2022

Revision: 22.08.2022

Product Name: CITRIC ACID ANHYDROUS

(Contd. of page 1)

3 . COMPOSITION AND INFORMATION ON INGREDIENTS

Chemical Characterisation: Substances

| CAS No. | Description |
|---------|------------------|
| 77-92-9 | Citric acid 100% |

Hazardous Components: Void

4 . FIRST AID MEASURES

Inhalation:

If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Seek medical attention if breathing problems persist.

Skin Contact:

In case of skin contact, immediately remove contaminated clothing and wash affected areas with water and soap. Seek medical attention if symptoms occur.

Eye Contact:

In case of eye contact, hold eyelids open and rinse with water for at least 15 minutes. Seek immediate medical attention.

Ingestion:

If swallowed, do not induce vomiting. Immediately rinse mouth with water. Give a glass of water. Never give anything by mouth to an unconscious person. Seek immediate medical attention.

Symptoms Caused by Exposure:

Inhalation: May cause respiratory irritation, sore throat, coughing and shortness of breath.

Skin Contact: Causes skin irritation.

Eye Contact: Causes serious eye irritation. May cause permanent eye injury.

Ingestion: No adverse health effects expected. Large amounts may cause gastrointestinal irritation, nausea and vomiting. Frequent or large doses may cause tooth erosion.

5 . FIRE FIGHTING MEASURES

Suitable Extinguishing Media: Water fog or spray, normal foam, dry chemical powder or carbon dioxide.

Specific Hazards Arising from the Chemical:

Hazardous combustion products include oxides of carbon.

Combustible solid, but does not burn readily. May form flammable or explosive dust clouds in air.

Incompatible with strong oxidising agents, bases and carbon steel.

Containers close to fire should be removed if safe to do so. Use water spray to cool fire exposed containers.

Special Protective Equipment and Precautions for Fire Fighters:

When fighting a major fire wear self-contained breathing apparatus and protective equipment.

6 . ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures:

Wear approved dust/particulate filter respirator and full protective clothing. Evacuate all non-essential personnel from affected area. Do not breathe dust. Ensure adequate ventilation. Avoid generating dust.

Environmental Precautions:

In the event of a major spill, prevent spillage from entering drains or water courses.

(Contd. on page 3)

SAFETY DATA SHEET

According to Safe Work Australia

Printing date 22.08.2022

Revision: 22.08.2022

Product Name: CITRIC ACID ANHYDROUS

(Contd. of page 2)

Methods and Materials for Containment and Cleaning Up:

Stop leak if safe to do so and sweep granules into a pile and shovel into drums for subsequent disposal. Consider vacuuming. Avoid generating dust. Provide adequate ventilation. Spills can be neutralised with soda ash or sodium bicarbonate. Clean spill area with plenty of water.

7. HANDLING AND STORAGE**Precautions for Safe Handling:**

Use of safe work practices are recommended to avoid eye or skin contact and inhalation of dust. Take precautionary measures against static discharge. Food, beverages and tobacco products should not be stored or consumed where this material is in use. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storage or re-use. Provide eyewash fountains and safety showers in close proximity to points of potential exposure.

Conditions for Safe Storage:

Store in a cool, dry and well ventilated area. Keep container tightly closed when not in use. Protect from moist air, dust generation, heat, sparks, open flames, hot surfaces and direct sunlight. Keep away from strong oxidising agents, bases, moisture and carbon steel. Protect containers from physical damage.

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION**Exposure Standards:**

Nuisance dust:

TWA: 10 mg/m³**Engineering Controls:** Ensure adequate ventilation of the working area.**Respiratory Protection:**

Where an inhalation risk exists, wear a Class P2 (particulate) respirator. At high dust levels, wear a powered air purifying respirator (PAPR) with Class P3 (Particulate) filter or an air-line respirator or a full-face Class P3 (particulate) respirator. See Australian/New Zealand Standards AS/NZS 1715 and 1716 for more information.

Skin Protection:

Impervious rubber gloves. See Australian/New Zealand Standard AS/NZS 2161 for more information. When selecting gloves for use against certain chemicals, the degradation resistance, permeation rate and permeation breakthrough time should be considered.

Occupational protective clothing (depending on conditions in which it has to be used, in particular as regards the period for which it is worn, which shall be determined on the basis of the seriousness of the risk, the frequency of exposure to the risk, the characteristics of the workstation of each worker and the performance of the protective clothing). See Australian/New Zealand Standard AS/NZS 4501 for more information.

Eye and Face Protection:

Eye and face protectors for protection against dust. See Australian/New Zealand Standard AS/NZS 1337 for more information.

9. PHYSICAL AND CHEMICAL PROPERTIES**Appearance:**

| | |
|---|---------------------------------|
| Form: | Free flowing crystalline powder |
| Colour: | Colourless to white |
| Odour: | Odourless |
| Odour Threshold: | No information available |
| pH-Value: | 1.5 - 2.5 (5% solution) |
| Melting point/Melting range: | 153 °C |
| Initial Boiling Point/Boiling Range: | Not applicable |
| Flash Point: | 345 °C |
| Flammability: | Combustible solid |

(Contd. on page 4)

SAFETY DATA SHEET

Printing date 22.08.2022

Revision: 22.08.2022

Product Name: CITRIC ACID ANHYDROUS

(Contd. of page 3)

| | |
|---|--------------------------|
| Auto-ignition Temperature: | Not applicable |
| Decomposition Temperature: | No information available |
| Explosion Limits: | |
| Lower: | Not applicable |
| Upper: | Not applicable |
| Vapour Pressure: | Negligible. |
| Relative Density: | 1.665 |
| Vapour Density: | Not applicable |
| Evaporation Rate: | Not applicable |
| Solubility in Water: | 1650 g/L |
| Partition Coefficient (n-octanol/water): | Not applicable |
| Viscosity: | Not applicable |

10 . STABILITY AND REACTIVITY

Possibility of Hazardous Reactions:

Hazardous polymerisation will not occur.
Reacts exothermically with bases.

Chemical Stability: Stable at ambient temperature and under normal conditions of use.

Conditions to Avoid: Moist air, dust generation, heat, sparks, open flames, hot surfaces and direct sunlight.

Incompatible Materials:

Strong oxidising agents, bases, moisture and carbon steel. Solution may slowly corrode mild steel and soften concrete.

Hazardous Decomposition Products: Oxides of carbon.

11 . TOXICOLOGICAL INFORMATION

Toxicity:**LD₅₀/LC₅₀ Values Relevant for Classification:****77-92-9 Citric acid**

| | | |
|------|------------------|--------------------|
| Oral | LD ₅₀ | 5040 mg/kg (mouse) |
| | | 3000 mg/kg (rat) |

Acute Health Effects

Inhalation: May cause respiratory irritation, sore throat, coughing and shortness of breath.

Skin: Causes skin irritation.

Eye: Causes serious eye irritation. May cause permanent eye injury.

Ingestion:

No adverse health effects expected. Large amounts may cause gastrointestinal irritation, nausea and vomiting. Frequent or large doses may cause tooth erosion.

Skin Corrosion / Irritation: Causes skin irritation.

Serious Eye Damage / Irritation: Causes serious eye irritation.

Respiratory or Skin Sensitisation: Based on classification principles, the classification criteria are not met.

Germ Cell Mutagenicity: Based on classification principles, the classification criteria are not met.

Carcinogenicity: This product does NOT contain any IARC listed chemicals.

Reproductive Toxicity: Based on classification principles, the classification criteria are not met.

Printing date 22.08.2022

Revision: 22.08.2022

Product Name: CITRIC ACID ANHYDROUS

(Contd. of page 4)

Specific Target Organ Toxicity (STOT) - Single Exposure:

Based on classification principles, the classification criteria are not met.

Specific Target Organ Toxicity (STOT) - Repeated Exposure:

Based on classification principles, the classification criteria are not met.

Aspiration Hazard: Based on classification principles, the classification criteria are not met.**Chronic Health Effects:** Frequent ingestion may cause tooth erosion.**Existing Conditions Aggravated by Exposure:** No information available**Additional toxicological information:** No information available**12 . ECOLOGICAL INFORMATION****Ecotoxicity:** No information available**Aquatic toxicity:** Highly toxic to fish. Not considered toxic to bacteria.**Persistence and Degradability:** Easily biodegradable**Bioaccumulative Potential:** No information available**Mobility in Soil:** No information available**Other adverse effects:** No information available**13 . DISPOSAL CONSIDERATIONS****Disposal Methods and Containers:** Dispose according to applicable local and state government regulations.**Special Precautions for Landfill or Incineration:**

Please consult your state Land Waste Management Authority for more information.

14 . TRANSPORT INFORMATION**UN Number** Not regulated**Proper Shipping Name** Not regulated**Dangerous Goods Class** Not regulated**Packing Group:** Not regulated**15 . REGULATORY INFORMATION****Australian Inventory of Chemical Substances:**

77-92-9 Citric acid

Standard for the Uniform Scheduling of Drugs and Poisons (SUSMP) - Poison Schedule:

Not Scheduled.

16 . OTHER INFORMATION**Date of Preparation or Last Revision:** 22.08.2022**Prepared by:** MSDS.COM.AU Pty Ltdwww.msds.com.au**Abbreviations and acronyms:**

GHS: Globally Harmonised System of Classification and Labelling of Chemicals

CAS: Chemical Abstracts Service (division of the American Chemical Society)

LC₅₀: Lethal concentration, 50 percentLD₅₀: Lethal dose, 50 percent

IARC: International Agency for Research on Cancer

STEL: Short Term Exposure Limit

(Contd. on page 6)

SAFETY DATA SHEET

According to Safe Work Australia

Printing date 22.08.2022

Revision: 22.08.2022

Product Name: CITRIC ACID ANHYDROUS

(Contd. of page 5)

TWA: Time Weighted Average

NES: National Exposure Standard (Safe Work Australia - Workplace Exposure Standards For Airborne Contaminants)

Skin Irrit. 2: Skin corrosion/irritation – Category 2

Eye Irrit. 2A: Serious eye damage/eye irritation – Category 2A

STOT SE 3: Specific target organ toxicity (single exposure) – Category 3

Disclaimer

This SDS is prepared in accord with the Safe Work Australia document “Code of Practice for the Preparation of Safety Data Sheets for Hazardous Chemicals - December 2011”
