READ SAFETY DIRECTIONS BEFORE OPENING OR USING

BOOMCLEAN DRY

Active constituent:
300 g/kg SODIUM HYDROXIDE
90 g/kg AVAILABLE CHLORINE
250 g/kg SODIUM TRIPOLYPHOSPHATE

For cleaning Agricultural Spray Equipment only

IMPORTANT: READ ALL DIRECTIONS BEFORE USING THIS PRODUCT

NET CONTENTS:

10 KG

4 FARMERS AUSTRALIA LIMITED ABN: 51 160 092 426
70 MCDOWELL ST, WELSHPOOL TEL: 1800 038 445 WWW.4FARMERS.COM.AU

DO NOT mix ammonia-based cleaners with 4Farmers BOOMCLEAN DRY. A toxic gas may be produced.
DO NOT leave in contact with brass fittings for prolonged periods.
DO NOT mix in galvanized or aluminium containers.

CHEMICAL TYPE	SITUATION	USE RATE	PROCEDURE
Non Persistent Chemicals (Insecticides, fungicides, herbicides other than those below).	Spray tank, hoses, lines and all associated spray equipment.	100 grams per 100L	<ol style="list-style-type: none"> Clean spray equipment immediately after spraying is completed. Hose down the outside of the unit; otherwise chemical adhering to the outside could contaminate the unit again after it has been cleaned. Drain the tank, then flush tank, boom, hoses with clean water for a minimum of 10 minutes. Half fill the tank with clean water and begin agitation. Slowly add BOOMCLEAN DRY. Fill tank with water. Agitate vigorously for 15 minutes and recirculate. Use the hand lance or return hose to clean the top of the tank and around the filter basket. Open spray booms and spray out. Repeat procedure above.
Sulfonylurea Herbicides (including Chlorsulfuron, Metsulfuron, Triasulfuron, Sulfometuron)	Spray tank, hoses, lines and all associated spray equipment.	200 grams per 100L	<ol style="list-style-type: none"> Clean spray equipment immediately after spraying is completed. Hose down the outside of the unit; otherwise herbicide adhering to the outside could contaminate the unit again after it has been cleaned. Drain the tank, then flush tank, boom, hoses with clean water for a minimum of 15 minutes. Half fill the tank with clean water and begin agitation. Slowly add BOOMCLEAN DRY. Fill tank with water. Agitate vigorously for 20 minutes and recirculate. Use the hand lance or return hose to clean the top of the tank and around the filter basket. Care should be taken to wash out any nooks and crannies, moulding seams etc. in the tank where herbicide could be deposited. Let the unit stand for 15 to 30 minutes. Run for 5 minutes and let stand. Open spray booms and spray out. Repeat steps 4 to 8 above. The solution may be left to soak overnight for an especially thorough cleaning.
Phenoxy Herbicide Ester formulations (including 2,4-D Ester, MCPA ester, Triclopyr, Tri-pick, Jaguar, Tigrex etc.)	Spray tank, hoses, lines made of plastic or rubber.	800 grams per 100L	Use same procedure as outline for steps 1 through to 6 for Sulfonylurea Herbicides. <ol style="list-style-type: none"> Let the unit stand for 3 to 4 hours. Run for 5 minutes and let stand. Open spray booms and spray out. Repeat steps 4 to 8 above. The solution may be left to soak overnight for an especially thorough cleaning.
All chemicals	Nozzles and screens/filters	10 grams per 10L	Remove and clean separately. Immerse in a solution of BOOMCLEAN DRY and allow to stand for 30 minutes. Remove any residue with a stiff brush. Rinse in clean water before re-connection to boom.
Stain and scale	Removal from spray equipment.	40 grams per 10L	Mix BOOMCLEAN DRY in a bucket and scrub stained areas with stiff brush. Wear rubber gloves and eye protection.
All chemicals	When sprayer is to be re-used immediately.		<p>This procedure ensures that any excess foam that may contain chlorine residue is completely removed from the tank. If this procedure is not carried out the next chemical batch may be broken down to some degree as a result of the residual chlorine remaining in the foam at the base of the tank.</p> <ol style="list-style-type: none"> Part fill the tank with water. Add 5 to 10 mL/100 L of an antifoam agent or 1 kg/100 L of ammonium sulfate. Agitate for 5 minutes and recirculate before spraying out. Rinse tank with clean water.

STORAGE AND DISPOSAL

Keep locked up out of reach of children. Store in closed, original container in a cool, well-ventilated area, as cool as possible. Do not store for prolonged periods in direct sunlight. Triple or, preferably, pressure rinse containers before disposal. Add rinsings to cleaning solution. Do not dispose of undiluted chemicals on-site. Do not reuse pail for foodstuffs. Empty containers and product should not be burnt.

SAFETY DIRECTIONS

Corrosive – may cause severe burns. Irritant – contact with acid liberates toxic gas. This substance is caustic. Avoid contact with eyes and skin. Wear suitable gloves, eye/face protection. Wash hands after use.

FIRST AID

If poisoning occurs, contact a Doctor or Poisons Information Centre. Phone: 13 11 26. If swallowed do NOT induce vomiting, give a glass of water if patient is conscious. Seek medical attention immediately. If on skin, wash immediately with soap and water. Seek medical attention if irritation persists. If in eyes, hold eyes open and flood with water for at least 15 minutes. Seek medical attention.

SAFETY DATA SHEET
