

Boomclean Dry

Active Constituent	Sodium Hydroxide 300g/kg, available Chlorine 90g/kg and Sodium Tripolyphosphate 250g/kg		Formulation WDG
Price ex GST	\$12.30/kg	Typical Pack Size	10kg
Poison Schedule	6	Dangerous Goods Class	8
		UN	1759
		Packing Code	II
Use	Boomclean Dry is a stable, dry formulated product which provides long shelf life, and is particularly useful in eradicating SU and Phenoxy product residues and maintaining spray equipment hygiene.		
Compatibility	Do not mix with ammonium based cleaners (creates toxic gas).		
Water Quality	Muddy water and organic matter will reduce efficacy.		
Situation	Purpose	Rate	Comments
Post-application spray equipment contamination	Removes harmful pesticide residues from tanks, hoses and lines	100g/100L	Non-persistent chemicals.
		200g/100L	Sulfonylurea herbicides.
		800g/100L	Phenoxy Ester herbicides.
	Removes harmful pesticide residues from nozzles, screens and filters	10g/10L	All products.
Comments			
Some chemicals (especially SU herbicides) are severely damaging to susceptible crops, particularly when formulated as EC's and with the addition of crop oils.			
Mix Boomclean Dry with water in the spray tank, pump to fill lines and nozzles, allow a stand time of 15-30min, pump again and refresh solution in lines and nozzles, allow to stand again, then pump out and flush with clean water.
